## Launch “The 9”

- Patent has been filed and is “Pending” by SQRDUP GOLF
- Product will be controlled via an App
- Projects the desired Swing Path on the hitting surface
- Golfers then replicate the Swing Path for desired shot shape
- App shows the actual Swing Path for each swing made
- Product can be integrated into Golf Simulators
- Teaches players “feel” and see results of the 9 potential shots
- Quickly fixes swing issues through repetition / muscle memory
- Excellent aid for all golfers from beginners to Pros
- Allows PGA Teaching Pros to deliver results quickly to students
- Another Hi-Tech Quality Product Coming From SQRDUP GOLF

**“The 9” is another State-of-the-Art training aid.**  
**We anticipate a 12-month engineering cycle & expect delivering to begin by the Spring of 2023.**

## Launch Laser Perfect Putting Alignment

- Being a good putter requires SKILL, FEEL and CONFIDENCE
- Laser Perfect Putting Alignment provides the Proper Putting Setup - SQRDUP
- Golfers will obtain the SKILL, FEEL and CONFIDENCE to be a better putter Quickly
- Peter Jacobsen states “The biggest problem is knowing whether the putter is square”
- SQRDUP has Developed a Prototype of this aid and received valuable feedback
- This product can quickly be finalized and put into the production phase

**TAKE ALL THE FRUSTRATION  
OUT OF PUTTING NOW!**

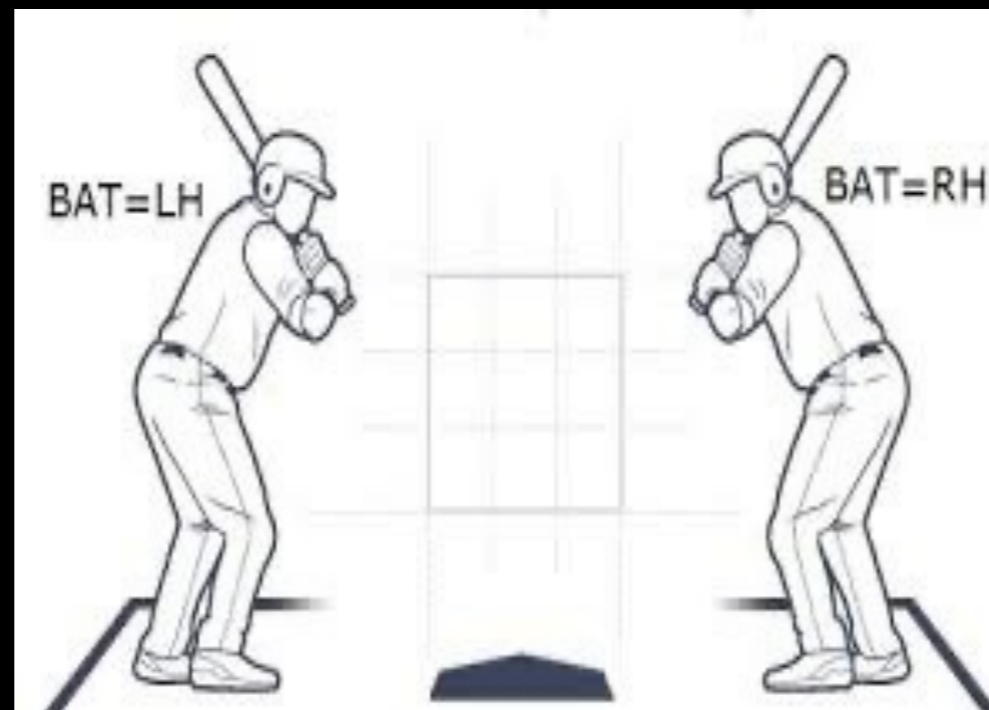

**Laser Perfect Putting Alignment is another State-of-the-Art training aid.  
We anticipate a 12-month engineering cycle.  
Delivering will begin in the Spring of 2023.**

## Launch the SQRDUP Strike Zone

- This State-of-the-Art Aid will utilize an App to provide Pitchers Instant Feedback
- A display will show Pitch Speed and Exact Location in Real Time
- There are over 180,000 Little League Baseball Teams Worldwide
- The market includes 30,000 High School/College Teams
- Baseball / Softball is also played Worldwide by Minor/Major League Teams
- Eventually this will replace an Umpire's Balls and Strikes Calls made in Error
- There is a need, and it is time to change to a "High-Tech Umpire" at all levels
- Provides Consistent Calls and Keeps a Level Playing Field utilizing Technology

The SQRDUP Strike Zone is State-of-the-Art & requires State-of-the-Art technology. Our engineering team is up to the task. We anticipate a 24-month engineering cycle & expect delivering to begin in the Spring of 2024.
